Accomplished developer with expertise in creating web application UI's and functionalities. Managed to create over 102 satisfied and happy clients by being succinct in personality and elaborate in result. I am an enthusiast for learning and creating solutions to problems.

WORK EXPERIENCE

Freelancing

Jul 2018 - Present
Remote

● FRONTEND DEVELOPER

Work on Gigs and contracts to create successive clients.

I have created e-commerce applications, landing pages, brand pages, company pages and so on. I also work as a fixer, I get referrals to fix bugs, rehabilitat broken or obsolete websites and applications.

even though I have worked with backend sometimes, I still appear as a frontend engineer.

Krowser web services

Apr 2021 - Present
Lagos, Nigeria

● FREELANCE DEVELOPER

Work and create strong relationshi with the compan's client. With my succinct, yet interesting personality, I have been able to create good developer-client relationship to the partners and clients of the organization.

I also work on gigs and contract . here I am being trusted with these projects and I have managed to create good relationships with the clients and the company at large.

FRONTEND DEVELOPER INTERN

Created solutions to various bugs and problems despite working as a junior in that environment. I used my skills in JavaScript and React to create highly sophisticated UI's for the organization's clients and also I learnt new things in the course of the program.

HNG internship 08
Mar 2021 - Present

JAVASCRIPT (BACKEND) DEVELOPER

I create backend RESTful API's using node.js and it's popular framework, Express with various technologies too for better performance. While working, I utilize my time to learn also.
